

STONE BY STONE

Moving Mountains in Haiti

I am writing for help establishing a dental clinic in a small village in Haiti, where an amazing transition is happening.

When we -- Stone by Stone, a 501(c)(3) non-profit -- began our work in Desab two years ago, we found the medical clinic opened only when U.S. volunteers staffed it. Today, the amazing part is the clinic opens weekly, staffed and managed by Haitians assisted by American volunteers. And it serves nine villages (about 10,000 people), not just one.

With financial donors like you, we want to take the next step and add a dentist to the mix.

~ A HAITIAN FEAST ~

Hillcrest Helps Haiti

Sept. 21, 2014 • 2-5 p.m. StonebyStoneFeast.org

This event is at the historic, beautiful "Hillcrest" Jephson estate in Cazenovia, where you can enjoy an afternoon buffet of traditional Haitian foods while exploring the beautiful mansion and visiting the Haitian gift shop.

Money raised will buy at least one year's service from a Haitian dentist, necessary medicine and the supplies needed to set up the clinic.

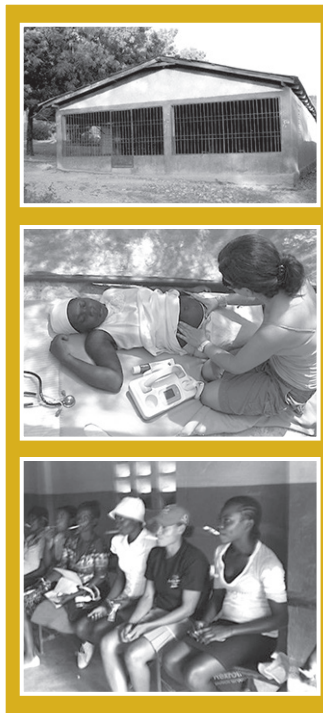

We've come to you for help because you know too well the medical and social issues that arise from poor dental care.

Please become a part of this amazing effort to help Haiti bring solid medical and dental care to its people.

With great regard,

Nicole Pitzer, PA-C

President, Stone by Stone
